COURSEWORK

SOFTWARE

Computer Architecture
Open Source Software Engineering
Program Design
Object Oriented Programming
Cloud Computing
Unix Tools and Scripting

UNDERGRADUATE

Supervised Independent Study in
Computer Science
Algorithms & Abstract Data Types
Web Applications
Mobile Applications
Data Mining & Visualization
(Research Asst. & Teaching Asst)

SKILLS GRADE

JavaScript, jQuery	9/10
PHP & MySQL	9/10
React, Redux, Flux	7/10
C++, Swift, Python	6/10
Node, Ruby, Java	4/10
HTML, CSS, Bootstrap, SASS	10/10
Grunt, Webpack, NPM	9/10

EXPERIENCE

PURRIVACY | FULL STACK WEB DEVELOPER

Jan 2016 - Aug 2016 | San Francisco, CA

- Responsible for all aspects of Back-end engineering.
- Mobile first responsive design with the Bootstrap 3 library.
- JavaScript and CSS are written to support all major browsers and using Jasmine library.

TUTYO | BACK END SOFTWARE ENGINEER

Sep 2015 - Jan 2016 | San Francisco, CA

- A start-up designed to help students with their questions. The platform used Bootstrap, React, jQuery, PHP and MySQL. Responsible for RDBMS and PHP development.

FREELANCE DEVELOPER | UI/UX/Front & Back End Developer

Jan 2012 - Sep 2015 | Concord, CA

- I helped businesses market themselves on the web. I specialized in branding, illustration, iconography and front-end and back-end web development.
- I pride myself in my ability to compliment any position, project or task with a can-do spirit, fixed many bugs and more in PHP and Shell.
